2007-2008 NNA/DMC Cost V.0

If you do not have a 3.5" floppy drive, you can send the following 6 files to your ADP analyst by CD or email.

Budget.db	Provider.DB
CURCNTY.DB	rptTitle.DB
CurrProv.db	ServUnit.db

(The default file location is C:\C0708_0\Data. If this program was installed in a different location, check with the people who installed it to find out the file location.)

This will require the user to manually move the files to a temporary directory to "burn on a CD" or attach to an email. If you have questions on how to do this, you should contact your IT department and/or follow your county's protocol.
